ACCESSORIES

STANDARD DOCK

Watch movies, view photos or listen to tunes all while charging. Plus, use the 3.5mm connector to plug in your favorite speakers or headphones. Use the included adapter plate to work with Motorola Protective Gel Case. Increase your productivity by pairing your dock with a full-sized keyboard with *Bluetooth*®[1] technology, a super thin design and quick access to Android™ apps with shortcut keys.

PROTECTIVE PORTFOLIO CASE

The Motorola Display Portfolio offers multiple viewing angles and is a stylish way to protect your device.

SELL IT IN 30 SECONDS

## QUICK TIPS
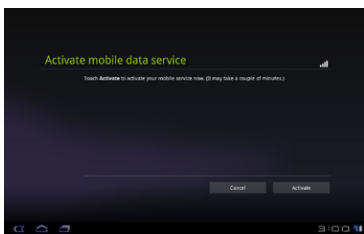

Connect to a Wi-Fi Network

1. Touch the bottom right corner of the screen.
2. Touch ⊞.
3. Touch 📶 to turn on Wi-Fi.

Your tablet scans for and shows all available Wi-Fi networks. Connect to the one you want.

Activating Browser Shortcuts

1. Touch Menu in the upper right corner of the browser > Settings.
2. Touch Lab > Quick Controls to enable quick controls that appear when you swipe your thumb inward from the edge of the display.
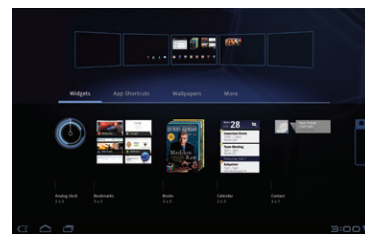

Home Screen Customization

- The home screen includes five customizable panels. Flick left and right to see more panels.
- To customize the panels, touch plus icon to open the customization page.
- Customize all 5 panels of your home screen by adding widgets, app shortcuts, wallpapers, and more – all from 1 location.

1 This device supports Bluetooth A2DP, AVRCP, HFP, OPP, PBAP and HID profiles. In order for Bluetooth devices to communicate with one another, they must utilise the same Bluetooth profile. To determine the profiles supported by other Motorola devices, visit www.motorola.com/bluetooth. For other devices, contact their respective manufacturer.

2 Available user memory varies due to the configuration of the device, which varies by service provider.

3 Usage time quoted in Digital Mode is approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data and other application usage patterns.
